SUMMARY

Senior Frontend Engineer with 5+ years of experience building scalable, high-performance data intensive web applications using React.js, Next.js, and TypeScript. Specialized in developing scalable dashboards, realtime data interfaces, and analytics driven platforms. Strong expertise in component architecture, performance optimization, and building reusable UI systems in production environments. Experienced in real-time data systems, debugging production issues, and designing fault-tolerant frontend architectures. Proven ability to lead frontend initiatives, define scalable patterns, and collaborate cross-functionally to deliver enterprise-grade systems.

EXPERIENCE

Software Engineer Consultant

Afrilabs

May 2025 - Present Lagos, Nigeria.

- Designed and implemented scalable frontend architecture for AfriLabs Connect platform using React and TypeScript
- Built reusable UI component systems to support complex, data-driven workflows
- Owned frontend architecture decisions and advised on best practices to ensure scalability and maintainability across the AfriLabs Connect platform.
- Reviewed and optimized UI/UX implementation, ensuring pixel-perfect design match, responsive layouts, and accessibility across devices.
- Collaborated cross-functionally to align product, design, and backend systems, reducing integration friction.

Frontend Engineer (freelancing)

Crypto AI Trading Dashboard

April 2025 - May 2025,

- Architected a real-time analytics dashboard streaming live trade data via WebSocket (100+ updates/min)
- Built streaming LLM interface with incremental rendering and async state handling
- Implemented custom reusable hooks (useBinanceStream, useStreamingLLM) for real-time data handling and agent interactions
- Optimized UI performance for 100+ updates/minute using memoization and controlled state batching
- Built responsive layouts across desktop, tablet, and mobile using Tailwind CSS
- Applied atomic component architecture for scalable UI systems
- Managed WebSocket lifecycle (connect, reconnect, cleanup) to ensure stable real-time updates

Frontend Engineer

Freelancing (Tekhify)

March 2025 - April 2025, Remote.

- Built and delivered a high-performance company website using Next.js with strong focus on SEO, scalability, and responsive design.
- Owned frontend implementation from architecture decisions through deployment.

Software Engineer

Prembly

January 2024 - March 2025, Nigeria.

- Led the redesign of the Prembly analytics dashboard using Next.js, Typescript, and D3.js, improving usability and ensuring visual consistency.
- Improved application performance by 30%, meeting Core Web Vitals targets and increasing user retention by 25%.
- Built data visualization components for analytics and reporting
- Implemented and maintained frontend testing strategies (Jest, React testing Library) to ensure code quality and application reliability.
- Collaborated with designers, backend engineers, and product managers to deliver cohesive solutions aligned with business goals.

- Ensured cross-browser compatibility and responsive design for seamless user experiences across devices.

Frontend Engineer

Sparklight Solutions

November 2021 - January 2024, Remote.

- Developed scalable and reusable UI components using React.js and Redux, Tailwind CSS, and TypeScript.
- Integrated RESTful APIs efficiently using Axios and Fetch, ensuring secure and optimized data handling.
- Worked closely with designers to translate Figma UI/UX designs into responsive web applications.
- Implemented modular CSS with BEM methodology to enhance maintainability.
- Applied code-splitting, lazy loading, and caching to boost performance and reduce page load time.

Software Engineering Intern

Obafemi Awolowo University

February 2019 - May 2021, Osun, Nigeria.

Developed an online banking application that improved service efficiency and reduced queue time.

PROJECTS

[ACDR \(The Afrilabs Connect Deal Room\)](#)

[ACDR Portal \(AfriLabs Connect Deal Room – Startup/Investor Deal Platform\)](#)

[AfriLabs Connect \(Africa's Innovation Ecosystem Platform\)](#)

[AfriConnect Portal](#)

[Prembly Website v2 \(Identity & Compliance Service\)](#)

[CLARS \(Loan Management System\)](#)

EDUCATION

Bachelor's degree, Computer Science

Minor in Economic, Obafemi Awolowo University • Ile-Ife, Nigeria.

SKILLS

HTML5, CSS3, JavaScript(ES6+), Typescript, Next.js, React.js, SASS, Tailwind CSS, Redux.js, OAuth, JWT, Context API, REST APIs, GraphQL, Material UI, Node.js, D3.js, Chart.js, Git, SEO optimization, CI/CD, Jest, React Testing Library, Webpack Optimization, S3 Bucket, Jest,
